

# PEPFAR's Contribution to the Scale Up of ART

Christine Y. Malati, PharmD

WHO/UNAIDS Annual Meeting with Pharmaceutical Companies and Stakeholders

March 20, 2015

# PEPFAR's Evolution

From Emergency Response to Sustainable Impact for an AIDS-free Generation

2003-2007: PEPFAR 1

Emergency Response

Delivering prevention,  
care and treatment  
services

Building and  
strengthening health  
systems to deliver HIV  
services

2008-2012: PEPFAR 2

Shift to sustainable  
response

Shared responsibility  
and country driven  
programs

Scaling up core  
interventions (ART,  
PMTCT, and VMMC) for  
impact

2014-2018: PEPFAR 3

Sustainability and  
shared responsibility

Quality, oversight,  
transparency and  
accountability for  
impact

Accelerating core  
interventions for  
epidemic control

A New Era of Accountability, Transparency, and Solidarity to Accelerate IMPACT

“We are at a critical juncture in the fight against HIV/AIDS. After three decades of hard won progress against the disease the dream of an AIDS-free generation is within our grasp. The good news is that we know what works. We have developed and implemented effective HIV prevention programs and are providing lifesaving treatment to millions of people...around the world.”

Ambassador Deborah L. Birx, US Global AIDS Coordinator
